NLP Master Practitioner

February 2012 to July 2012

A 21 day journey to your edge with Marie Faire and guests

"At Beyond we are so very excited about this programme. We are passionate about releasing the potential of each of us and believe that this development is about allowing and encouraging us to be more of who we are. This programme uniquely combines high quality NLP training with a personal and professional journey.

We like to create multi-level learning experiences, that are fun, challenging and "at the edge". This will be no exception. You will be encouraged to challenge, and be challenged, to give and receive feedback, to fully engage, to take risks and live the learning as it is happening.

My personal mission is to live my life 'like a flaming torch', with a sense of personal integrity and a willingness to put myself on the line. And my bliss is in facilitating others to do the same and become all they can be."

Marie Faire

Practitioner skills are the foundation stones on which we build what we call 3-dimensional NLP.

The focus for this entire programme is identity and becoming all you can be. We bring your personal journey to the forefront - who you are now and who you want to become – both in your work and in your personal life. We use the core NLP skill of modelling as a fundamental process for realising your potential and taking your NLP to the next level.

We take a whole systems approach, creating a context where you will live your learning. With a maximum group size of 15, individual and group process becomes the content for truly applying and developing your NLP skills.

We apply modelling to two major projects, individual and organisational, that will support your personal alignment and integrity.

You will further develop your NLP abilities through mapping patterns and systems and working with beliefs, values, leverage points and advanced NLP based change agent skills. A very special addition is the opportunity to demonstrate your leadership and expose some patterns through an experience of Horse Whispering.

We are rigorous in our standards & integration assessment and completely committed to supporting you on your learning journey and in developing outstanding (NLP) capability at a personal, interpersonal and group level. The Beyond Partnership is a full member of the Professional Guild of NLP.
